Sanderum Centre with
two other Centres

Networking &
collaboration
opportunities

The main benefits of our serviced office suites are ease, flexibility and total transparency via all-inclusive monthly pricing. We offer short, 4 month contracts compared to 12 months plus with traditional commercial leases, providing the stability of fixed overheads with the convenience and flexibility of easy in/out space that can grow and flex as needed - perfect for businesses and professionals who aren't sure how long they will need office space for or how quickly they are going to grow or scale.
